ENTHOO 719

The Enthoo 719 has been designed to house the most powerful hardware with the flexibility to configure it to your needs for the perfect system. From SSI-EEB motherboards to extreme water cooling and extensive storage capabilities, anything is possible.

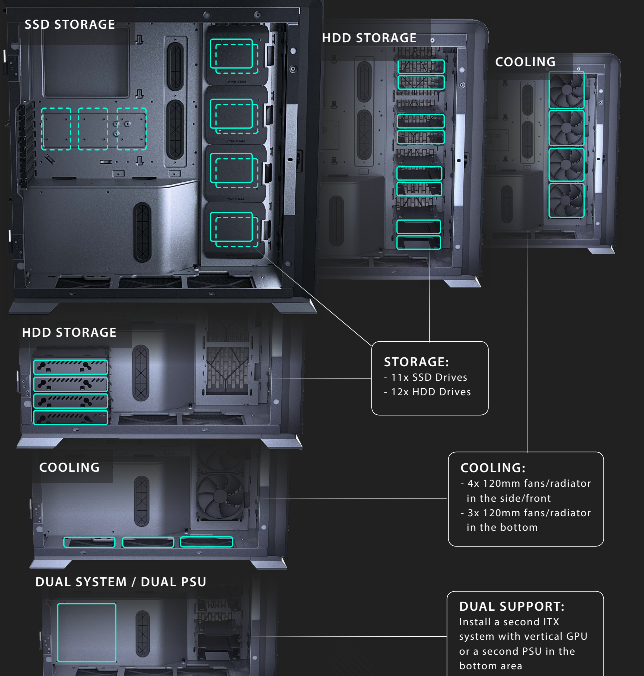
When combined with the Revolt X or Revolt Pro even a dual system or the most powerful workstations can be a reality.

HIGH QUALITY

The Enthoo 719 is built using quality materials with a strong steel frame, aluminum panels and tempered glass windows to complement any high-end configuration.

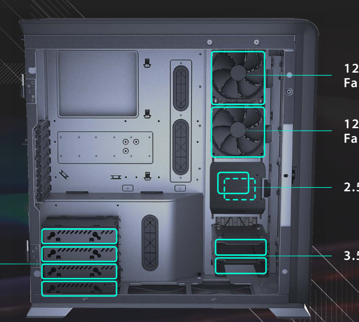
SUPERIOR CUSTOMIZABILITY

The interior of the Enthoo 719 offers the flexibility to configure it to your needs. Both the side and bottom fan positions can be utitlized for multiple purposes so you can build your system just the way you want it.



CREATE THE PERFECT CONFIGURATION

Each section can be configured individually for different purposes.



CASE SPECIFICS

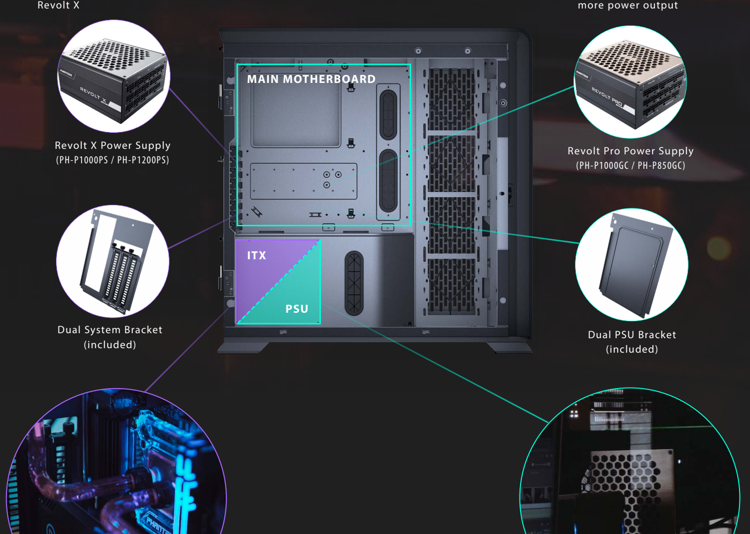
DIMENSIONS & COLOR

DUAL SUPPORT

The Enthoo 719 chassis supports either dual systems or a dual PSU configuration when paired with a Revolt X or Revolt Pro.

DUAL SYSTEM: Install a second ITX system with vertical GPU with the Revolt X

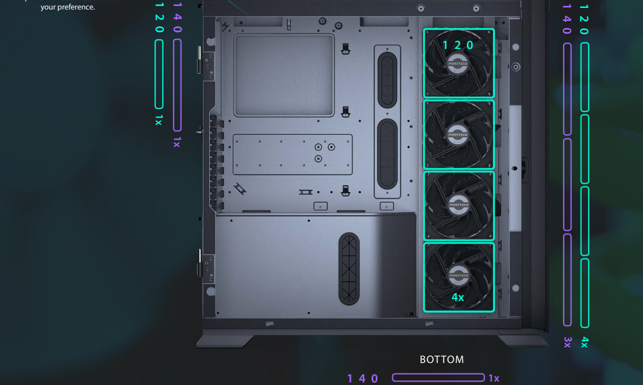
DUAL PSU: Install a second PSU with the Revolt Pro to unlock more power output



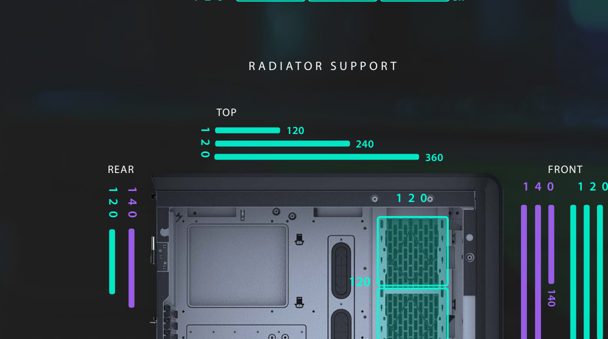
COOLING CAPACITY

With support for up to 15 fans, the Enthoo 719 offers the highest level of performance for both air and water cooled system. Even dual 480 radiators with dual 360 radiators is possible.

FAN SUPPORT



RADIATOR SUPPORT



STORAGE CAPACITY

Storage can be configured with the ultimate flexibility acording to your needs. Each position can be utitlized optimally for SSDs, HDDs or cooling.
